Introductory

The present volume for 1952 is the 46th edition of Henderson's Directory of Regina. The work embedies a complete epitome of the civic, commercial, social, and industrial interests and activities of the municipality. It is a modern Directory in all parts and includes all essential features which have proven so satisfactory to our patrons in provious issues; these have been retained and amplified and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory, thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

THE DEPARTMENT OF MISCELLANEOUS INFORMATION

THE DEPARTMENT OF MISCELLANEOUS INFORMATION starting on page 7 contains information about Civic History and Industry, as well as a complete list of Apartment and Business Blocks.

THE STREET AND AVENUE GUIDE

THE STREET AND AVENUE GUIDE starting on page 21 features the names of all streets and avenues arranged alphabetically and numerically, giving the location, number on the street, and showing the occupant.

The intersecting strents are shown in the order that they come. A Denotes that there is a Telephone in the house.

Denotes that someone living in the house is the owner.

THE ALPHABETICAL DIRECTORY

THE ALPHARETICAL LIST OF NAMES of citizens, business firms and corporations starts on page 189.

THE CLASSIFIED BUSINESS DIRECTORY

THE CLASSIFIED RUSINESS DIRECTORY at the back of the book exhibits the various manufacturing, moreantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

REGINA POPULATION, in excess of 73,000

The Directory estimate of population is based on the actual number of individual's names in the Alphabetical section of the Directory, with due allowance for children and for women whose names are not listed. The Regina Directory covers considerable torritory beyond, but tributary to the city limits, which is canvassed in order that the names of all people employed or who purchase in Regina may be obtained.

ADVERTISING REGINA

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the Directory in the directory libraries, where they are readily available for reference use by the public. There they serve as perpetual advertisements for business men the country over realize that the City Directory represents the community as it really is

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

> Respectfully. The Publishers, HENDERSON DIRECTORIES LIMITED.

Regina

(By Courtesy The Regins Chamber of Commerce)

Chief Sitting Bull made the first recorded visit to the present site of Regina when he arrived there in 1881 on his way to Wood Mountain where the Sioux made their head-quarters while seeking refuge in Canada after the Custor Rattle on the Little Big Horn in Montana. The locality had lone been shown to the natives as "Heap O' Bones," owing to the fact that a great pile of buffalo bones garnished the low hills nearby. The first settlers called the place "File O' Rones," and this name appeared in official documents. The name, "Wascana," given to the creek running through the area is a corruption of the Cree word for File O' Bones.

It was intended to name the place Victoria, in honour of the Queen, but that name had already been bestowed on the Capital of British Columbia. The matter was referred to Princess Louise, the daughter of Queen Victoria, whose husband

Aerial View of Rogina

was then Governor General of Canada, and she selected the name "Regina." The city was named as the first train arrived at nine o'clock, August 23rd, 1882. A tent settlement had sprung up in the spring of that year.

Regina was incorporated as a City in 1983, but the little community had already been the seat of Government of the North West Territories for twenty years. It became the Provincial Capital when Saskatchewan was formed in 1985.

At the time of its incorporation Regina had a population of 2,000. Today it has a population of 73,500. While not what might be called a large city, it is the fourteenth largest of all Canadian Cities. It may seem small for a Capital, but in Western Canada a city of 50,000 or more is often of greater significance from the point of view of commerce and distribution of goods than a City of several times the population in older countries.

Regina is the financial centre of the Province and it holds an important place in the life of Saskatchewan by virtue of the fact that it is the Capital and by the commercial and industrial development which has taken place within it.

The Legislative Buildings are among the most stately and beautiful in Canada. They are situated on the banks of Wascana Lake and surrounded by spacious grounds which have been bouutifully developed and landscaped. The building itself is regarded as an ideal structure for legislative work. It was first begun in 1906 and cost in the heighborhood of \$3,000,000.00.

Region contains Churches of many denominations and is the sent of the Anglican Diocese of Qu'Appelle and of the Roman Catholic Archibocose of Region.

Regina is one of the best paved cities in Canada for its size. It has approximately 52 miles of paved streets, over 48 miles of graded streets, over nine miles of oil and gravel streets and 40 miles of gravelled streets. It has 54 miles of concrete and 75 miles of plank sidewalks.

The City has one hundred and forty miles of sewer and 103 miles of water-mains with 521 hydrants and over 13,500 meters. There are two trunk sewers,

a sewage disposal works and an incinerator for disposal of garlage.

A modern fire department is maintained by the City with fire stations, a force of 125 well trained firemen, and fully equipped with modern fire fighting apparatus,

Recause of its natural attractions and the improvements which its people have made to it in the course of its short history, Regina is a very popular tourist and convention centre. Hotel accommodation is suitable for small and large gatherings and many thousands annually take advantage of its splendid facilities.

AGRICULTURE

Surrounding Region is the finest grain growing district in the world. Saskatchewan is the greatest grain growing province in the Dominion and produces annually one half of the Canadian hard wheat crop. As producer of quality hard wheat Saskatchewan leads the world, having won the world's prize eleven times during the past sixteen years.

While Saskatchewan has always been considered the Fremier Grain Growing Prevince in the Dominion there is abundant evidence that she will, in the not distant future, occupy an equally outstanding position in the realm of livestock. At the Royal Winter Fair, Toronto, and at the International Exposition, Chicago the high quality of our Saskatchewan livestock has been demonstrated over a long paried of years.

AVIATION

Regina was a pioneer in the field of aviation. It was one of the first cities in Canada to have a municipal flying field. This is well equipped with a fine hangar.

Regina Flying Club was established in 1927, and received the fullest co-operation from Civic Authorities. It built a hangar for its own operations.

The Airport area now comprises 500 acres with additional space available and subject to easy development. It has three runways, 3,500 feet long and 150 feet wide. These are all hard surfaced.

There is a very substantial administration building and control tower at the airport and it is particularly well supplied with taxi strips capable of handling any weight.

Regina is connected with the Transcontinental line of the Trans-Canada Airlines and is the southern terminal of the Canadian Pacific Airline which provides a local service to a number of Saskatchewan Cities.

Regina is favourably suited to be a central point on World routes extending from the West Coust to Europe and from Eastern and Central United States through Alaska to the Orient. It is merely at the beginning of its potential development and it is extremely fortunate that its foundations are so well laid.

BANKS

There are 7 Chartered Banks in Regina-Bank of Montreal, Bank of Nova Scotia, Canadian Bank of Commerce, Dominion Bank, Imperial Bank of Canada,

Royal Binks of Canada, and the Bank of Toronto. All are members of the Regina clearing House Association, which made a record in 1952 with total clearings for the year standing at \$1,281,768.13. A branch of the Bank of Canada is also located in Regina.

BENEVOLENT INSTITUTIONS

The Renevolent Institutions in Regina include the Masonic: The Royal Arch Masons, Knights Templar, Scottish Rite, L.O.P.R., A.A.O.N. Mystle Shrine, Eastern Star. Others are: 10.0 F., Maschester Unity, Knights of Columbus St. Andrews Society, Sons of England, Sons of Scotland, Knights of Phythias, Dramatic Knights of Order of Khorasen, L.O.R.A., L.T.R., Royal Antodeluvian Order of Buffaloes, L.O.L., Orange Benevolent Society, Order of Alpha, United Commercial Travellers, and the Fifteen Hundred Club of Regina.

BUILDING

Regina has experienced two outstanding periods of building activity. The first of these was 1911 and 1913. In these three years permits totalled over \$17,000,000. The second was the period 1926 to 1929 when building permits exceeded \$24,000,000. Reging is now in a third period. Value of permits in 1950 exceeded \$6,400,000.

Rusiness and public buildings are of brick or stone construction. Private dwellings are of brick wood, or stucco, the latter has become especially popular of recent years. The Legislative Building, the Hotel Saskatchewan, the Dominion Government Railding, the Post Office, Canada Life Building, McCalium Hill Ruilding, are a few of the structures to which Regina can refer with justifiable pride.

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY Every Time It is Loaned

The practice of lending your City Directory in a great measure, is responsible for the increasing cost of Directory Service

The reason is:-

There is a definite cost involved in the making of the Directory of Your City

This cost must be absorbed by the subscribers—be they one—or be they 1000.

If there were but One Subscriber to the City Directory—the One Subscriber would of necessity have to absorb The Whole Cost.

If there were 1000 Subscribers—each one would have to absorb 1/1000 Part of the Whole Cost

From which it is obvious that the Greater t e number of subscribers—the Lesser the cost to each

Every time you loan your tity Directory the Less Necessity there is for the Borrower to subscribe for the Service.

More Borrowers result in Fewer Subscribers, w it' means Increased Cost.

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY Every Time It is Loaned

The practice of lending your City Directory in a great measure is responsible for the increasing cost of Directory Service.

The reason is -

There is a definite cost involved in the making of the Directory of Your City.

This cost must be absorbed by the subscribers—be they one—or be they 1000.

If there were but One Subscriber to the City Directory—the One Subscriber would of necessity have to absorb The Whole Cost.

If there were 1000 Subscribers—each one would have to absorb 1 1000 Part of the Whole Cost.

From which it is obvious that the Greater the number of subscribers—the Lesser the cost to each.

Every time you loan your City Directory the Less Necessity there is for the Borrower to subscribe for the Service.

More Borrowers result in Fewer Subscribers, which means Increased Cost.
